

## Key Investor Information

This document provides you with key investor information about this fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this fund. You are advised to read it so you can make an informed decision about whether to invest.

**B&H Flexible**  
a subfund of Buy & Hold Luxembourg  
**Class 2 EUR (Accumulation) LU2278574715**  
Management Company: Buy&Hold Capital SGIIC, S.A.

### Objectives and Investment Policy

The investment objective of Buy & Hold Luxembourg – B&H Flexible (the **Subfund**) is medium- long-term capital appreciation by gaining exposure to a broad range of asset classes on a global basis while seeking dynamic and flexible exposure to risk according to the global market conditions.

The Subfund is a multi-asset, medium-long, total return oriented which aims to explore opportunities in financial markets, by investing in variable portions in different asset classes (i.e equities versus bonds), instruments (Target Funds versus Direct Investments), geographies and sectors. In order to achieve its investment objective of the Subfund, the Management Company may on a temporary basis tactically overweight a single asset class, instrument, country or sector, always within the investments limits

described in the Prospectus as well as the investment limits as set out below.

In particular, the Subfund seeks to achieve investment returns while reducing volatility within the defined investment limits in response to varying economic conditions that could affect the performance of the respective asset classes.

The investment decisions will be taken by the Management Company according to its appreciation of which asset class, geographic area or industry sector offers the best investment opportunities, always within the restrictions of the Prospectus.

The Subfund is not subject to a predetermined country, industry sector, credit rating or market capitalization

### Risk and Reward Profile

Historical data used may not be a reliable indication of the future risk profile of the Subfund.

This category is not guaranteed to remain unchanged and may shift over time.

The lowest category does not mean a risk-free investment.

This indicator is a simulation based on the historical volatility of the reference portfolio a Spanish investment fund qualifies as an undertaking for collective investment in transferable securities which has been merged into the Subfund (the "merging sub-fund") over the past 5 years and places the Subfund in this category.

The Subfunds' capital is not guaranteed.

### The Subfund is subject to the following risks that are not fully taken into account by this indicator:

- **Credit Risk:** it represents the risk that an issuer will not be to meet principal and interest payments on its obligations. This risk exists particularly for high yield debt securities.
- **Counterparty Risk:** the possible use of over-the-counter derivatives exposes the Subfunds to the risk that the counterparty will not settle the transaction in accordance with its terms and conditions. This could result in substantial losses to the Subfunds.
- **Liquidity Risk:** it refers to the inability of the Subfunds to dispose of investments at a price equal or close to their estimated value within a reasonable period of time.

**For more information about the risks you may face when investing in this Fund, please refer to the sections "Risk Factors" and "Subfunds" of the prospectus.**
