You are about to purchase a Product that is not simple and may be difficult to understand.

What is this Product?

Type

The Class 2 EUR Shares are a class of shares within Buy & Hold Luxembourg - B&H Debt (the "Sub-Fund"), which is a sub-fund of Buy & Hold Luxembourg. This Fund is authorised in Luxembourg by the CSSF as an undertaking for collective investment in transferable securities in the form of a common fund (fonds commun de placement). The depositary is UBS Europe SE Luxembourg Branch. The Fund is managed by Buy & Hold Capital SGIC, S.A. (Management Company).

Term

The Product has been established for an indefinite period of time. The Sub-Fund grants daily redemption facilities under normal market conditions. Under certain market conditions the Sub-Fund might not be able to satisfy redemption requirements. The Manufacturer may terminate the Product early. The amount you will receive upon early termination may be less than the amount you invested.

Objectives

The Investment Objective of the Sub-Fund is to achieve capital appreciation in the short-medium term, with a higher degree of principal stability, investing in fixed income mainly in investment grade issues of issuers located in OECD countries. The Sub-Fund shall

- Invest 100% of the total exposure in public/private fixed income, including listed and unlisted bonds, up to 20% in listed commercial paper and up to 25% in aggregate in subordinated debt (with subsequent collection preference to unsecured creditors).
- Invest in liquid deposits and money market instruments .
- Invest in fixed-income or floating rate securities (including but not limited to corporate and government bonds, notes zero bonds and convertibles bonds), preferably from private issuers and to a lesser extent from public issuers. In general terms, the duration of the portfolio in fixed-income or floating rate securities will be between 0 and 3 years.
- Invest at least 50% of its net assets in investment grade assets. In addition to that, the Sub-Fund may invest up to 50% of its net assets in high yield, non-rated fixed income securities and Contingent Convertible Debt Securities.

The credit rating or equivalent classification of such investments will be monitored in the event of a downgrading of the bonds following acquisition to ensure that no more than 50% of the net asset value of the Sub-Fund is invested in high yield, distressed or defaulted securities, where 10% of the net asset value of the Sub-Fund may be in distressed or defaulted.

The Sub-Fund does not promote environmental or social characteristics, nor does it have sustainable investment as its objective and is considered as an "article 6" financial product in accordance with the Regulation (EU) 2019/2088 of the European Parliament and the European Council of 27 November 2019 on sustainability-related disclosures in the financial services sector.

Intended retail investor

The Sub-Fund is suitable for investors with medium risk tolerance and a short-medium-term view who wish to invest in a diversified portfolio of fixed income assets.

What are the risks and what could I get in return?

Risk Indicator:

The risk indicator assumes you keep the Product for 2 years.

The summary risk indicator is a guide to the level of risk of this Product compared to other Products. It shows how likely it is that the Product will lose money because of movements in the markets or because the fund is not able to pay you.

We have classified this Product as 2 out of 7, which is a low risk class.

This rates the potential losses from future performance at a low level, and poor market conditions are very unlikely to impact our capacity to pay you.

Other risks: Credit risk, Liquidity risk, Counterparty risk, Operational risk, Derivatives risk, Currency risk, Event Risk. Please refer to the Prospectus for

more detail.

This Product does not include any protection from future market performance so you could lose some or all of your investment. The past performance may be a poor predictor of the future and, hence, the actual risk of losing money may vary significantly.

What happens if Buy & Hold Capital SGIC, S.A. is unable to pay out?

The assets of the Product are held separately from the assets of Buy & Hold Capital SGIC, S.A. as fund management company and from the corresponding custodian bank. Thus, you will not lose your investment in the event of a possible insolvency of Buy & Hold Capital SGIC, S.A.

What are the costs?

The person advising on or selling you this Product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

Costs over Time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the Product and how well the Product performs. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed:

- In the first year you would get back the amount that you invested (0 % annual return). For the other holding periods we have assumed the Product performs as shown in the moderate scenario.
- Investment: 10,000 EUR

Costs over Time	If you exit after 1 year	If you exit after 2 years
Total costs	129.00 EUR	259.79 EUR
Annual cost impact (*)	1.29%	1.29%

(*) This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be 1.34 % before costs and 0.05 % after costs.
